Evergreen Memorial Gardens - July 03, 2025 at 05:56 PM

“ We were so saddened to learn of the passing of our friend Alice. We have been trying to reach Tom, Nathan or Barbara. If anyone can get our contact info to one of them we would appreciate it so much. Jim and Carolyn Mirich mifieldni@yahoo.com 406-241-6770

Carolyn Mirich - February 13, 2022 at 12:00 AM

“ I knew Alice from the Idaho National Laboratory, where we both worked for a time. More importantly, we were hockey and T-ball moms together, and shared the joys and challenges of parenthood. What a great lady. We both retired and moved cross country about the same time, and I tried without success to track her down. To Tom, Nathan and Barbara, Jerry and I send our deepest condolences.

Carol Cole - August 29, 2020 at 12:00 AM

“ I was an employee at the Livermore Field Office when Alice was the Manager. My deepest sympathy to the Williams' Family. It is with great sadness to hear of her departure. However, memories of her put a big smile on my face. Because of the positive qualities she possessed, dedication, integrity, companionate, love of work and people, I can honestly say it was indeed a pleasure to have known and worked for her. She will be missed but her spirit lives on. God be with her and may she rest in peace.

“ I'm heartbroken. Alice was one of the best leaders I've ever had the pleasure of working with. She was brilliant, kind, and had a wicked sense of humor. I considered her a mentor and a friend. And man could she walk fast for such a little thing!

“ I am beyond saddened by Alice's passing. She was my friend and supervisor at the U.S. Department of Energy Headquarters in Washington, DC. I will never forget her kind, passionate and generous soul. It was a pleasure and honor to work for her. She had a beautiful smile that brightened any room and a huge heart. I will miss our emails talking about our families and catching up. My sincere condolences to her beloved family. Miss you dearly, Sabrina!

“ Alice was both a friend and colleague. I was blessed to have worked with her during her tenure in Idaho, at West Valley, Livermore and in Washington. Through all those years her first question was how are you and your family doing. She was a special person and I was blessed to have known her

Joel Case - June 04, 2020 at 12:00 AM

“ To Tom, Nathan, Barbara, and all of Alice's family members: Alice will hold a special place in my heart for the leadership she provided to the West Valley team in the 2000-2003 era, when we safely transported the largest-ever SNF shipment and completed HLW vitrification. When I say leadership, I include the unique and caring manner in which she pulled us together with teamwork and collaboration, and helped us be the very best we could be. We would not have been successful in those years had it not been for her leadership. Most importantly, she truly cared about all of us, she was proud of her team and her mentoring continued for many of us long after she moved on from West Valley. I will miss her so very much. Alice has left so many wonderful memories for me and others who have been fortunate enough to know her initially through our work lives. She was a very special person and I know how hard this must be for you all. I am attaching some photos, to include us in front of the last "evacuation" canister, Alice with Senator Clinton, and one from her retirement party ... our former EPA Region II counterpart attended and his presence at her retirement celebration says everything about her collaborative leadership style that inspired and gained the respect of all who knew her. I will miss her so very much.

“ Alice was so generous of heart and a true servant as well as a kind, humble leader who was so funny and wasn't afraid of voicing the truth in her own remarkable way. She was fearless and enjoyed the humorous perspective on things. There is no one like Alice. She was an icon and an incredibly humble, kind servant as well as an amazing leader who lifted others up around her. I was so lucky to have been able to work for her. Her passing is tragic, brutal and untimely. She was a rock and a bright light wherever she went; never met anyone like her. She is probably rejoicing on cloud 327...however, my heart aches for Tom and her family. She always had a unique way of a morning greeting; she would muster up the most adamant "Good Morning" you ever heard. She was an amazing unforgettable soul!!!! Her kindness and patience towards others was impeccable. She worked the candle at both ends as a civil servant. May God Bless Alice & her family!!! ~christi

“ I had the honor and privilege to work for Alice when she was at the US Department of Energy. She was an awesome boss and an even better person-- always ready to listen and provide you any support you needed. She was my superior, but was always humble to all-- from the most senior to the worker bee. She is someone I will never forget! Please accept my sincerest condolences. She will be missed by many! So, so sorry for your loss, ana Han (the picture if one our trips together to the UK)

“ I am deeply saddened by Alice's death. She has been my friend since high school days. Even though there were years that we were out of touch, I never forgot her friendship. It was a delight to reconnect with her several years ago, and I always looked forward to an email from Alice-full of her intelligence, perception, and wicked sense of humor. I will miss her. My sincere condolences to her beloved family. Lois Wilson Wessale.
