Great-grandchildren: Taelynn Saula,(St Helens, OR) / Makenna Saula(St Helens, OR).

Private service will be held on February 11th, 2020.

Mom had a hard time over the past 2 years. Dad (George Kanegae) passed away on October 3rd 2018, Blake Kanegae (oldest son) passed away on October 3rd 2019 and mom was diagnosed in mid October 2019 with incurable Leukemia.

Despite all of these obstacles she was facing she was determined to continue on with life for as long as she possibly could.

She went through chemotherapy treatments for 3 months. She had no side effects from the chemotherapy treatments, however, she was in the hospital a lot due to the side effects from the Leukemia. Being in the hospital more than at home and finding out that the chemotherapy treatments were not working she decided to go on hospice at home. Mom put up a tremendous fight despite the odds, we all know she was doing it for the family and we love her for that. Sadly on January 30th, 2020 she passed away, we're all going to miss her deeply however we all know now that she is no longer suffering and she's with dad and Blake.

Mom,

Thank you for all that you have done for this family, you will be greatly missed but never forgotten.
