“ To Bev's husband (Smith) or one of her twin boys. I first got to know Bev in about 1960 in Packwood, then when she lived in Hazel Dell, went to her wedding in approx. 1992. I wrote a poem about Ohanepicoch and did it in a needlework and gave it to her. If you come across it, please send me the words. I can't find my copy. I currently live in Longview.

“ I have been trying to find you for several years. I'm so sorry that you have now passed away. I hope a family member will get in touch with me. I knew Bev & Asa from Packwood 1961. The last time I visited her was at her wedding to Smith and spoke to her on the phone several times later. She was a special lady. I will always hold a special place in my heart and memories.

“ Beverly attended Hazel Dell Assembly of God which was the church I grew up in. My parents socialized with her and her husband Asa Knowles until he passed. We went on several camping trips with and on one trip to the beach, my sister and I wanted to run and play, but Beverly insisted that we learn how to clean clams. Needless to say, for many years she was not our favorite person. However, I came to appreciate that skill and am thankful to this day that she did that. My condolences to her sons.
