“ Brad was a very interesting guy! I worked with him occasionally at the Sheriff's Office. When our paths did cross and we'd start a conversation, I never knew where it was going to go or end up once we started talking. He had so much information stored in his head and could bring it out whenever the occasion called for it. Interesting tidbits you wouldn't necessarily think about -- which challenged you to dredge up stuff you didn't even know you knew, or never thought you'd use! He made beautiful jewelry too. My sincere condolences to Brad's family. I hope you all will find comfort in memories of happy times spent with him.
