“ I was shocked when my sister Beth told me Bryan had passed. We had some great time together growing up. I had not seen Bryan in the past twenty years, but I know we would have connected as if it was yesterday. I so wish I could have connected with Bryan before he passed. Everyone loved Bryan very much he was truly a friend. My condolence to family.

“ My condolences to the family, Bryan has been a long time friend and I have life time of memories from working, roommates, van club events, fishing, hunting, bowling, golfing, and general conversations. The lost is crushing, however, I am very proud of Bryan as he lived life his way.
