“ I was trying to reach my old neighbor I was so fond of today to wish him a happy birthday. I wanted to share with him how the boys he had always had root beer for are becoming young men. We spoke at Christmas and he seemed to be doing better. I am so sad to hear about his passing. I miss having him next door and will miss knowing he is enjoying his new home and spending time with his family. Rest In Peace Tom. Fondly- Dave, Eva, Hack and Chet Ebert

“ Tom Beam was my best friend during my nearly seven years at The American College, Bryn Mawr, PA, where he was on the faculty and wrote many high-quality books about employee benefits and related financial topics. I recall with great fondness all the great dinners we had together, and hearing about his wonderful trips around the globe. Tom had a very kind heart, had exceptionally high standards in his work, and was devoted to his family. I last spoke with him a few weeks before he passed, but with the busy-ness of life (far away from Vancouver, in suburban Philadelphia), did not check in until several weeks after he had passed away--which I just found out now, in late July. I am sorry I did not have a chance to talk with him again. My thoughts and prayers go out to his sister and her family--please know that I so appreciated his kindness to me, both during my time at the College and after, and even after he left the Philadelphia area a few years ago. I know he loved being close with you all again, and I am glad you were a strong support to him in his last months. Anne Clifford Worcester, PA

“ Tom was our neighbor when we lived in Felida. What we remember about Tom was how he enjoyed traveling. If he wasn't planning his next cruise he was sharing with us about his previous cruise where he traveled and what he saw. From his cruise down the African coast line he brought us back a lovely painting purchased from one of the locals at a port where they had stopped. Tom was more than a neighbor he was also our friend. Dave and Mary Boyer
