“ *Carla was a friend of mine for about 15 yrs, she was a class act in every way. I saw Carla about every 10 days to airbrush tan her beautiful legs. Over the years we shared our battles with breast cancer, love for cars(hers where better) relationships, building her deck at the coast and so much more. I just loved her. She will be greatly missed.*

“ *Carla was my closest, dearest, irreplaceable friend in the world. If you didn't really know her, you missed the chance to know one of the best souls you could ever meet. For nearly fifty years, we were like brother and sister — chosen family in every way that mattered. In my own way, I tried to fill the space left by the brother she never got to know, and she filled a place in me that only she could.*

Losing her feels like losing the surrogate sister of a lifetime.

She'll be sincerely missed, fondly thought of, and loved for the rest of my life.

*Love always and forever,
Ray*
