LY

“ I was an 8th grade student of Mr. Sixberry's the first year he taught in Powers.

He "tagged" me and 2 other students that year. He gave me an assignment to research. The topic was "Liberation". I had not even heard the word before. I went to both the school library, the public library and checked out books from the State Library. He gave me an "A" on my report. (This was before the days of PC's)

More than anything else he gave me confidence in myself, the love of literature and reading for pleasure. I went on to be the Valedictorian of my Senior class, and did well in college, obtaining an AS Degree in Business.

To this day he has been my favorite teacher, I respected him, adored him, and am so sorry to hear of his passing. My heart felt wishes go out to his family, colleagues, and friends. May you have warm memories to help you all through this time of Loss. Lona Yeiter (formerly Leshner)
