“ I love and miss you sooo much grandma Pete! I remember how you and grandma Elaine would teach us girls how to play skip-Bo and play it over and over again just having sooo much fun together and watching your favorite game shows. :) also how u made the best cream of wheat and had two little bowls one for white sugar and the other for brown sugar and a cup of milk and always made sure I was full before you ate yours. Everytime I spent the night at your house you would always come in and cover me up again with a blanket that I had kicked off :) I love you and when we meet again I hope you have your deck of skip-Bo cards ready for us to play! Love you always, your granddaughter Amy! :) <3
