“ At one time in our lives Colleen and I were like sisters. I remember her infectious laughter, her intelligence, and quick wit. She was fiercely loyal, and loved her children and grandchildren more than anything. Regardless of the wounds she suffered and struggled with, she never lost her faith in God...and plans to see each one of us in Heaven when it is our time :-) Rest assured: she will be watching over each of her children and each one of her grandchildren...cheering you on, laughing with you during humorous moments, quietly comforting you and encouraging you to comfort one another with unconditional love.

“ *Colleen my dear friend I will miss you dearly. No words can say how the world of friends you have will miss you and how much you were loved. I will continue to push forward with your dreams and nobody else in the world can take your place. God loves you and so do I.*
