MJ

“ Corrine was a long time friend, I've known her for as long as we both worked at the hospital starting at Memorial, I, also, worked with her mother. My favorite memory though is when my granddaughters were small and my daughter worked on 3West, I used to bring them up to the waiting area outside Corrines office, so when she got off work we used to sit and talk for long periods before she left for home. I enjoyed those moments, and missed them when my girls started school, and I no longer watched them. Corrine was a good friend, she will be missed.
