“ I have known Debbie since grade school. She was always the sweetest person, quiet but always ready to laugh and joke. Some of my favorite memories are of staying overnight at the Thompson home which was pretty packed already, but one more seemed to be no problem! I loved watching the sisters decide who would wear what that day as they all traded outfits back and forth. And sometimes the decisions were not made without an argument!! I love the Thompson family and always loved hanging out there. Debbie and Barbara came and painted my whole house inside about 3 years ago and it is so beautiful I hope I never have to change it, it makes me think of them and the fun we had while they did it.
