“Wow, I am shocked and saddened to hear about this. I truly enjoyed dealing with you. You were always so full of energy and as I can see by others writings, you had a very big heart. In my 30 years of being in the comic business, I have never had a customer volunteer to help "get my office better organized". I am glad we met and I always looked forward to hearing from you during an unexpected and last second visit. You left quite an impression and I can still hear your laughter when fondly talking about your dad. The world is a better place with people like yourself around and I have the feeling you left this impression with most people you met. You were a very unique and genuine individual and I am sorry to learn of your passing. Deepest sympathies to your relatives and loved ones.
