“ Hi Mommy, Diana again,  
Just wanted to let You know the reason it took so long for Me to  
post on here. Well it's because no One ever told Me about this.  
Kelly and Donna clearly knew, so why I wasn't told, I don't know.  
But, it's a pretty cool thing that They offer for Anyone to write  
something. :)  
I love You Mommy,  
Love Your Baby Girl

“Hi Mommy, In a couple months it'll be 5 years since You left. I cannot put into words just how much I miss You. I love You more than words could ever say. I'm still not really ok without You. I wish You could call Me. Yes I know that sounds weird but if I had one wish It would be to go back in time when I was little and Everyone was home. Dad would be outside watering the grass and You would be in the kitchen making Dad's lunch for the next Day to take to work. My Sisters and I would be in the living room watching TV probably "The Love Boat." I would realize that it's only for one Day that I get to be there back in time. So I would avert My attention to You and just study Your Face and listen to Your voice and just memorize Everything about You. I'd walk into the kitchen and hug You until it annoyed You and memorize Your scent, and tell You over and over again that I love You. You'd probably say "what is wrong with You, go watch tv" lol and I'd say "nothings wrong Mommy, I just wanted You to know how much I love You." You'd say "I love You too, My Baby Girl." Omgsh what I would give to have that actually happen.

Whenever I describe to Someone how it feels to lose You. I say this "It's a pain I never knew existed." 100% true

I feel so blessed to have gotten to visit You 3 times while in the hospital for Covid at a time when no One was allowed to only because I work there. Then in April 17th, 2021 getting to be there holding Your hand as You transitioned to Heaven, this was at the time when no One could be with Their loved Ones when passing from Covid but I got to be there with You. I know for certain it was Gods doing. Everything happened in accordance to His plan. From Me getting the job there to You getting Covid and Me getting to be there with You when you took your last breath. Everything leading up to that was the plan all along no matter how sucky it is unfortunately that was the plan.

Thank You Mommy for always being You for always loving Me and being the absolute best Mom to all Your Kids. I love and miss You so much Mommy.

Love Always, Your Baby Girl,  
Diana

“ *I miss you every day mom. You are loved so much and your passing has been so hard. Thank you for all of your sacrifices, strength, courage, and love. It's been almost 9 months since you have been gone and I still am not ok and have not come to terms with it. The solace I have is knowing you are with God and all of our family who has gone before. I know you are in good hands, you have no more pain, sadness, anger, or heartache. I am happy about that. You deserved far better then you got. You will always be in my heart. I love you mom, so much and I hope you always knew that.*  
*Love, your daughter, Kelly*

“ *I love you mom and I will miss you more than words could ever say. I miss you so very much. You were the glue that held our family together. You made every special occasion so wonderful for all 8 of us children as well as our extended family. The many months before your passing were so special to me because our relationship grew so much, and even though we were not able to see each other in person, our conversations, the sweet things you said to me, hearing you laugh, and us remembering old times together were such priceless memories that I will hold in my heart forever! You will never be forgotten. I love you mom! Your Daughter, Kelly*
