“ *In his Brother Wayne's daughter.. I'm just 6 years later finding out about my uncles death.. I would have never known he passed way had I not googled his name. Weird thing about this side ( My father's siblings). Is that none of them were ever close at least in adult hood and the Men in this family all seem to die either before the age of 60 or at 60 yrs old mostly do to self sabotage it seems. I'm not sure why all of my fathers siblings all lost contact with one another it doesn't seem right and it's sad because I only have a few memories with my uncle Don some were good most memories were of him drinking beer and smoking cigarettes as he sat in the chair watching car races. I wish I had known him better. He also has a Son also named Don which obviously he's my cousin that I've only seen a few times and that was when I was a very little girl. I don't know how he passed but I hope he didn't have to suffer a long time. I'm sorry you're gone uncle I think of you often I was wondering where you went.. This explains where you were all these past few years I'd looked for you.. Rest in peace uncle  
Love Katrina*
