“ I was saddened to see that Don had passed away. I am truly sorry for your loss he was a wonderful person and I loved him dearly. Don became a friend after I wrote some of his insurance policies several years ago. He often came to the office for a hug and a chat and my husband and I enjoyed some good times with him at his home the car show. We purchased his GTO a few years back and I think of him every time I get into it.

I will miss him a lot.
