“ *My Mother was there for me in good times and bad times. She was there for me when she didn't have to be. For the the love she gave me I can never thank her enough. It was wonderful to visit with her in Wenatchee just a month before her passing. We had time to reflect and time to say our good byes. She knew her time here on earth was short and just after visiting with the last of her children, she went home to be with the Lord. She will be missed greatly..... Thank you for all the years of love and caring for me even when you could have given up. I will love you forever. Michael Momma Doreen was exactly that to me, a mom. I loved her very much enjoying cooking sessions and outings. She loved me like one of her own children and blessed me telling me on my last visit with her that she wished she had met me a long time ago. Marie*
