“ *Heidi, You will never know how many lives you touched so deeply in your short time here. You were a great friend and a caring and giving partner. You were there for me when I gave birth to my daughter and helped raise her like she was your own. Although we drifted apart, you stayed in touch with Michelle and that meant so much to her. Thank you, for your friendship and your love. We will never forget you!*

*“ Aunt Heidi, I have no words for the complete shock I am in, you
have brought our family so much love and happiness. All that I have
thought about since you very first got sick was that you would find a
cure and you would continue to bless us with your presence in our
family. I have countless memories with you, more than I can even
remember, but that's what happens when I was a baby for half of
them. I don't know if my heart will ever completely heal or if the
realization that your gone will ever subside. I want you to know that I
love you so much, we all love you. We will never stop loving you
and I thank you so much for the fact that I have so many wonderful
memories and that I had the amazing opportunity to have you as my
aunt. My heart hurts. Love always, Your Bud (Alexis Rucker)*
