“ I have been searching for Jean Truax for last couple years, the old phone number I had no longer worked, she lived at an assisted living facility and I cant find them anymore, the phone number I have no longer works. I sure do miss Jean, she was an inspiration in my life and her stories of her life and times in Alaska sure made me want to come up here to Alaska and see what adventure was still left to discover! Jean had a spark in her eye and was a real honestly good person. She came up to visit on or around 2010, I cant remember exactly, it was one of her last big goals in life to see her old stomping grounds again, and check on one of her "adopted" kids...she and I got along so great and enjoyed every moment together. The smile on her face while driving her around this place put a smile from ear to ear on Jean! If any of her kids or family can send me her obituary or want to call or email, Id be happy and thankful to visit. I never knew that she died, and am real sad at the moment and also happy that she is pain free and with God now. my email is erick@erickwatkins.com Im an old friend of Jean and miss her and her feisty personality and her never-give up attitude! thanks,
Erick Watkins
