“ Bonnie and I wish to offer our sincere condolence. Jimmy was a dear cousin of mine. Our paths crossed now and then over the course of our lives and each time we got together we always had a good time. Jimmy's life has been a precious gift to many and we will always cherish his memories. God speed gentle Jim.

“ I love the story told by uncle Jim and aunt Betty of when they took me shopping. Although I was less than 1yr old, they took me over to the dresses and whichever one I grabbed was the one they bought me, no matter how ugly it may have been:) Or the nickels! Uncle Jim would always find nickels in my ear and I was just so impressed by that! I went to school and told my teacher and classmates that I had nickels in my ear, made them all look! When they said they saw nothing I insisted they were wrong cause my uncle Jimmy ALWAYS found them! Or seeing my uncle walk in a room with the biggest grin and his hands full of a meal he had made. Always saying "come try this shelly, I put a little something extra in it", only to deny me the secret ingredient when I asked what it was..lol..I love you so much uncle Jim and their are so many memories that I will hold onto forever. I will remember your infectious smile and laughter, your love you gave to me so freely. Rest easy unc, until we meet again.

“ I will always remember first night i met you. You asked "if i had ever seen a Polish trailer?" You got up from your chair and said "follow me" i followed you like a doofus. I finally caught on. You were a good husband, father and grandfather. I am thankful you are free from pain and with our heavenly Father. Praying for peace and comfort for your family.
