

John Patrick Tenney

May 30, 1937 - April 29, 2011

My father John P. Tenney was born in Shanghai then moved to Japan. He had a rough childhood because he had an abusive stepfather. After he was old enough he came to America and joined the US Navy. Through one of his tours through Japan he met my mother, Lisa. They fell in love and he brought her to America. My dad stayed in the Navy for 20 years. He loved movies more than anything, we would go to the movies every weekend. He was afflicted with Huntington's Disease, a horrible disease. He battled this for years. He was a great father, husband, and friend.
