“ *Kelli and I worked together at 1st Independent Bank, many years ago. We could always count on her to lighten the mood in our department. Kelli and I became friends and she helped me through one of my most difficult times. However, we always had fun together, plus, she brought me along the evening she met Ron for the 1st time (she was nervous), and look how that turned out. Sending my deepest condolences to Ron, Kelli's girls and the grandchildren.*
