GM

“ I've known Ken for just a few years, but in that period of time he touched me deeply with his compassion, intelligence, wit and wonderful personality. I know Ken is in a better place and his suffering is over. May God bless Ken and his family

CM

“ Kenny, one in many millions. His life was filled with lots of love for all the people and places that were dear to him. It has been a privilege to rub shoulders with this superb man. Here's to you, my friend, for all the laughter and good times. Wishing you could flash that great smile one more time. Until we meet again, Gary and Cheri
