

## Marian L. Dreier

March 16, 1950 - January 21, 2021

Marian L Dreier of Vancouver, WA, continued her journey, leaving this earth on January 21, 2021. She was surrounded by loved ones and was at peace.

She was born March 16, 1950 to Audrey L Dreier and Alvin V.M. Dreier.

Marian graduated from Evergreen Highschool in 1968 and took business courses at Clark College. She spent most of her life working in the financial industry, working for lending firms and mortgage companies.

Marian never married or had children. She is survived by her sister Opal.

To know Marian was to love her and she will be missed by many. She was a loyal friend to anyone who needed one and spent most of her life helping others and being there for them when needed. She had a fantastic sense of humor. She was also passionate about photography, especially sunsets.

Service for Marian will be held at Evergreen Memorial Gardens on Friday January 29th. She will be laid to rest next to her mother and father.

“ There are so many wonderful things about Marian I don't know where to begin. Her love for people, gardens, flowers, her family are the first things that come to mind. I had the privilege of knowing and working with Marian for many years. She was so selfless and giving of herself and caring and remembering the details for all of us who had the joy of working with her. She will be missed, I couldn't find many photos but this one is how I think of her, happy and fun to be around. I hope I can find a Marian rose for my garden, like the Audrey rose you found to honor your mother.

“Marian was such a beautiful person inside and out. She was so thoughtful of others and genuinely cared. You knew because she would recap on stories or topics you previously talked about and she wanted to make sure she got the full story to the end. She had a way of making you feel so important. We were neighbors, but it was our friendship that was our foundation. We enjoyed spring and summer together the most. Marian shared some seeds of Washington marigolds, sunflower and then a start of her butterfly bush with me when I bought my new house. She called so many times making sure that butterfly bush took root. That bush is as big as a shed now 5 years later, haha. I will cherish every bloom thinking of her with a smile attached. I will never forget her for her kindness towards others, passion to take care of others, self care, and love for nature. She was a one of a kind quality friend. I already miss her dearly.

“ I worked with Marian for a number of years. Marian always took delight in the goings on in the office. She especially loved flowers and plants and her office always reflected her love of gardening. She had a big heart and she truly loved her co-workers and her job. My favorite memory of Marian will always be when she and many of the gals in the office proceeded to "write" a book with pictures of our dogs as the hero's in the story. This book was sent to a little boy at OHSU struggling with Leukemia. Her dear "Jessie Dog" had passed on and Jessie's picture became our angel in the story. Our story was about these hero's helping the little boy to fight leukemia. Just like she encouraged the little boy , let me encourage you by telling you that Marain's memory lives on in all of us who knew her . She will always be remembered for her wit, work ethic, empathy and above all , her big heart. I grieve with you on such an incredible loss but knowing Marian , she is enjoying the beautiful gardens in her forever home. Remember, she is only a "blink" away. Love, Iris Wellman

“ I also worked with Marian a number of years. She would take all our fledgling plants and with her green thumb produce beauties. One of her favorites was roses. Marian was also very supportive when I went thru cancer treatment, twice. Marian invested her riches in friendships. She will be missed by many.
