“Dad was a great father-in-law and I'm very thankful for that. I have some fantastic memories of time spent with him that I will always cherish. He was a man who sought peace. He loved all of his children and his grandchildren very much. May he have eternal peace now.

“As others, I have and will treasure fond memories of Dad. With him, learning to hunt and fish; learning carpentry and other skills; going to baseball games and his work; or even the dump was always fun and interesting. Listening to him reminiscing with my children was especially nice. Dad was about friends and family, natural and "adopted." I believe that we will all miss him fondly.
