“ Marvin is very helpful and want to be active. He loves nature and animals that's why he always walked the dogs at the park then picked up some flowers on his way home and want them in his room so he can smell them until they last. Marvin always want to help caregiver as much as he can as he requested to his social worker if he can get some yard works but unfortunately was not granted, so I let him participate some activities that he can do as part of his meaningful day at the facility. We missed the presence and humor of Marvin.

“ Q: How did you meet Marvin?

A: Marvin was my client in my adult family since I started it. I took him over from the old owner and since then, he stayed with me until he passed away. All of us in the adult family terribly missed him as he became a part of our family we cared. We were not prepared of his passing but I knew he is in a better place now.
