“ Molly was an incredibly friendly and mature student; I enjoyed her so much in food science class last year. She had a cordial way about her that was very welcoming to those she met. I was "touched" by her grace. I will never forget you, Molly. RIP

“ I cannot imagine the depths of your sorrow. Molly was such a sweet and gentle soul and I cherish the memories of all the hours she spent with us. She was a wonderful friend to Therese during a special time in her life and we will all carry her in our hearts forever. Molly was always special to John and I believe he met her when she reached heaven. They will be waiting for us.
