“ So sad that you went so fast. I know I had not seen you in many years, but I remember that when the younger cousins would get together we all thought of you as the cool cousin. I am sorry we did not spend much time together in our later life. Condolences to Deana, Gerald, Eileen and all of his family. We love you.

“ Even though we were apart and went through hard times I never stop loving you. We have two handsome sons. As well as grandchildren that are going to miss knowing their Grandpa. But we will tell them the stories of all the funny things you did. I didn't expect you to go so fast. I thought we still had time to talk. I will miss you and thank you for the good memories and our two sons.
