“ My mom is so special. You think back and why didn't I tell her she was appreciated. I can't really remember much of my childhood. But if it wasn't for my mom I wouldn't be here today. I have closer with my mom. I went and saw her when I could. Since I live 2 1/2 hours away. I love and will miss you forever mom. Ich Liebe dich Marion

“ My Grandma Pauline was very special to me. Looking back, I wish I would've told her just how much I appreciated everything she had ever done for me. I will forever cherish and tuck inside my heart, all of the memories I have of/with her. -Tabitha Maxwell 💜

“ Grandma loved to go shopping with my mom and also her friend, whom she called Chickity. Grandma loved her daily walks throughout her neighborhood and was basically the neighborhood watch. 🌍 Grandma always "saved for retirement" and would not spend money on things she didn't need. She had towels you could literally see through, but refused to let us use the towels that were saved for "retirement". I think she instilled her hard working values into me. I learned that yes, you should prepare for the future, but you should still live in the now, and enjoy life. I wish she would've taken a trip or did something nice for herself. She was always taking care of others instead. She was one of a kind. 🧡
