“ Susan I remember your Mom when we were teenagers and she was a joy to me and so helpful during my troubled youth. You were blessed to have her strength and support in your life all of these years. You were always there for each other. You have some wonderful memories together and you can depend on those to carry you through the loss. I know you will miss your Mom, but I feel she will be with you daily. A mothers love is never gone. God Bless You and Your Family. Bonnie

“ Susan and Larry and all of the family: John and I were sorry to hear of the loss of your Mother. To lose such an important and defining person in ones' existence is so difficult and can leave a large hole in ones' life. I hope the life-long memories that you had together will loom large forever and bring you smiles and peace during this difficult time. Please accept our sincere condolences to you and your family. Pam & John Begley
