“ *The first time I spoke to Phyllis she made me feel like we knew each other all our lives. We had so many things in common, love for our children, our families. She was specially very much in love with Hal. Always thinking of him first. Proud of her children and crazy about her grandchildren. It is not going to be easy without her, I can not lie. But in time God and Phyllis herself will help you along the way, until one day, you will smile more than cry. Love Rossi*
