SH

“ I always loved seeing him in Di Tazza and serving him his medium sized mouth scalding hot butter rum mocha on a mostly daily basis! He was such a caring and devoted husband. It was always a special occasion if he was able to bring his wife into the shop. Occasionally he would I think even take a little nap in his car right outside the shop 😍. Sweet man! He always loved to know about all the fancy technological gadgets too;). Also I remember he had a passion for boats.
