“ *My Dearest grandpa, You showed me nothing but unconditional love since the day I came into the world. You were always my number one supporter and told me I could do anything I wanted to. I will always cherish the many memories we had together, as well as all the laughs shared. Even though you are gone and will not get to see big mile stones in my life I know you will be there always watching and cheering me on. I love you forever and always the world seems a little less bright without you but I know you are no longer in pain and are at peace with teddy. All my love Ashbug*
