“ We are so saddened to hear about Sharron, we did not have the privilege of getting to know her, however we have heard so many reports of what a dear sister she was, we missed out not getting to know her, we will have the privilege in the new world. Oh for the real life when all sorrow has passed. Our prayers are with the family, we all have to somehow endure until things are made right, I know hearing about her that is what she wants, we have to trust in Jehovah until things are made right. Let's all work at a positive attitude like she had and not let Satan win this, trying to discourage us. Keep up the good example Tom. I feel your parents played a huge role in all you kids doing so well. Our prayers are for the whole family, we know how you all are grieving, just remember time heals and she is not suffering. Love you all, Randy and Donna

“ Sharron was the type of person that personally touched all those around her. She made me a better man, husband and friend. It was a privilege to be her soul mate and partner.
