“ *My Aunt Shirley was one of the most kind, non-judgemental, caring, loving and pleasant persons on this earth. I love her very much and will miss her, but my life has been enriched by having her in my life. She is now having a wonderful reunion with the love of her life, Keith. As a kid growing up I had special memories of both of them that will be with me my whole life. I only wish that any of us could perfect just one or two of the numerous qualities she had. If you came in contact with her, she made you a better person and you always had her 100% attention and concern. My thought and prayers go out to Jaynee and her family. Those that feel guilty of the way they have treated her in these later years, should feel guilty and ashamed. You will never find a better mother, or caring human being. Both my wife and I loved her very much and will miss her greatly.;*
