“ Tom, I'm proud to have you as a son and being able to watch you become the man you are. Having three and a half months to be there for you and your family has really bonded us together. The discussions, stories and laughter we shared. Your many friends I met and came to know. Your neighbors that came to help and be there for support. The parking space for my motor home right next door to your house. The thoughts and memories are because we were part of each others lives. I love you and will miss your company. Love, Dad..

“ Tom, I dont think you really knew the legacy and impact that you left behind at the 104th. Every time a Soldier opens the units website, there you are - you designed it, you made it work, and every day we reap the benefits of your hard work. You allowed us to become better people by letting us visit you and Vivian and reminding us of how precious life really is as every moment really does count. You allowed us to become better Soldiers because you reminded us not to take the privilege of wearing the uniform for granted. Your patriotism was unwavering and your courage was never ending. I am a better person for knowing you and for that, I will always be grateful. I am sorry that I cant be there to say good bye. You are our hero.

“ Tom, You have an incredible family and it clearly includes the 104th. So many kind and wonderful things are said and done on your behalf and I love them all for that! God bless them all and keep them out of harms way. For me, there is nothing I can say to make others understand how much I love my brother or the inner connection we have. I speak in the now because you and I are each a part of the other, thus, in-seperable. So we will always be together. "Love you man.."

“ Tom My Friend, ever since we met I was not only impressed with your knowledge but with your passion for learning and life. As our friendship grew you helped me deal with several issues including my health, and life in general and I thank you for that. You always had the ability to put a smile on everyones face no matter what. As you were going thru your news of your health we shared many moments together in discussions and in turn our friendship grew and that I thank you and love you. May your new beginning be blessed. My prayers are with you and your family. Love you brother Mike Elliott

“ My dearest Tommy, you have given me so much joy since you came into my life when the doctor was at the grocery store. You were always surprising me with your bright mind and humor and willingness to share what you learned with others. Thank you for all the letters you sent me while you were overseas, even the one time I sent you store bought cookies when you always wanted homemade ones. Know that you were important to all of us and how much we loved you. You will live in our hearts forever. Your mother, Darylene

“Dad, You are a very intelligent person and always had an answer for each and every one of my questions I had, no matter what the subject was. That's one of the things I liked best about you, your depth of knowledge, also your funny jokes, the way you made the best homemade food ever, especially your pizza. My favorite memory with you was when just the two of us were on the beach in Lincoln City, looking for whole sand dollars instead of broken ones wed always find. We ended up finding bucketfuls that morning, and got trapped on a little island for a bit, but we just laughed. It was one of those moments where you stop and think, I never want this to end." I will always love and miss you, and I hope you're having fun up there with George and Buddy. Pet them for me. :) Youre the best. Thanks for everything.

“ Tommy, miss you buddy. Each time we interact with another person we forge an impression changing that individuals internal spiritual fabric. Your legacy will continue to live on, as we forge new relationships, piecing together our tapestry of life enriched by you. There are a few times in life we are unable to describe some things due to its beauty, simply Thomas thank you.
